an.kox GmbH - Proof of water column

This is to certify that the product **2K-Sealing Adhesive SX 1 (20 kg set)** provides water tightness equivalent to a **water column of 15 meters**.

The testing was carried out by the Material Testing Institute (MPA).
As part of the examination, it was verified that the above-mentioned product withstands the hydrostatic pressure of a 15 m water column without any leakage or material failure.
