

TECHNICAL DATA SHEET - HAUCON FUNDAFORM SORT

DESCRIPTION AND FUNCTION

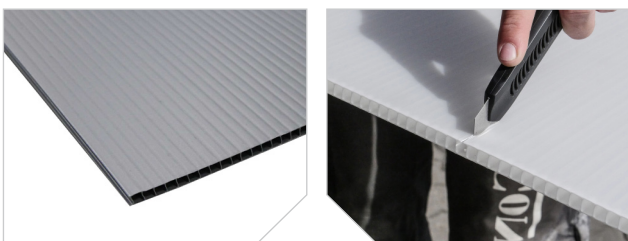

HauCon Fundaform Sort is a 8 mm sheet of polypropylene. The sheet consists of channels which makes the sheet lightweight and firm while being easy to cut to the desired size.

HauCon Fundaform Sort is a good alternative to plywood and the sheet can often remain after casting – as opposed to plywood.

HauCon Fundaform Sort can also be used as roof for temporary cover.

Benefits of HauCon Fundaform Sort

- Lightweight
- Easy to handle
- Cut to size with knife
- Better work environment
- Sheet size: 240 cm x 120 cm
- Sheet thickness: 8 mm

The channels of the sheet will most often be upright upon installation. It is important that the sheet is back-filled properly before casting.
